## TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25 % of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

**The terms are prompt cash settlement after sale, and no time given.** Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

**Remit by money order, draft, check, or in any way most convenient.** Stamps accepted for accounts that are below one dollar only.

**Coins will be bought below your bids** where other offers permit, as this is competitive bidding, executed in good faith.

**No unlimited bids** will be accepted from anyone, at this sale. Mark your highest limit or bid on the bid sheet, and we will buy as much under this price, as other actual bids permit. **Get your bids in before the date of sale.** Don't wait until the last minute. Help us with our work and we will help you get something.

The usual charge of 5 % will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt.** However, if a 3-cent stamp is enclosed we will send receipt.

**Be certain that you bid on the lot you wish to buy.** We will correct errors and adjust claims, but you should not expect us to pay for **your mistakes.** Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

**Bids must reach me by the morning of the sale.** Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

Between the seller and buyer, my position is describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative by the collecting public.

**It is easy to bid by mail.** If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for fifty cents (50c). Send coin or stamps with your bids so as to reserve a price list, or if you prefer, we will add the cost to your bill of items purchased for you at this sale. Keep posted on coin values as they are today, and order a price list in advance of the sale. After the sale they cost \$1. Before, they are 50 cents.

## A TRIP ABROAD

(Continued from 132nd Sale Catalogue)

Before leaving Nuremburg it is interesting from the collector's viewpoint, to recall that letters mailed by me there in August, 1936, on the ill-fated Hindenburg Airship are now bringing one dollar each. We arise early at 5:30 to catch a train to Heidelberg, 100 miles to the west. It is a magnificent old town of 85,000 inhabitants, one of the most visited towns in Germany. Heidelberg lies between the lower slopes of the Odenwald on both banks of the Neckar. The climate is unusually mild, a favorite residential city. Surrounding are fine forests with well-kept paths. A rapid round of the sights of this strange town and the visitor thinks he has exhausted its possibilities. Every town has its own features, the result of its many varied and component parts, the landscape, the climate, the character of population, its history and culture.

Precisely Heidelberg is so much a part of the landscape that the visitor should consider the picture of the town as a whole, before passing into the details, in order to fully understand the charm of the individuality of the town. From the Friedrich's Bridge we see how the Neckar issues forth from the narrows of the mountains. To the north lies the old town crowned by the Castle. In the center the Old Bridge links up with the residential quarter on the south bank. In the distance are mountains and hills. We move along to see the predominant features of the town to see which deserves the prize of beauty, whether the Providence Church and St. Peter's, the Marstall and the Hay Barn, the old University and Jesuit Church, the Church of the Holy Ghost, the Bridge Gate, until our attention is caught and riveted by the Old Castle, the most beautiful and artistically valuable ruin in Germany. Paths, streets, and an electric mountain railway lead from town up to the castle, a magnificent conglomeration of fortresses and palaces, the work of many centuries molded into one whole by the work of time. We saw in a basement an old wine barrel over 200 years old, that held 49,000 gallons. West of the town leads the Fuhrer's great new motor road "proclaiming the peaceful reconstructory aims of the New Germany" to quote the guide's own words in 1936. The two latest achievements are a war cemetery dedicated to the men who fell in the World war and an amphitheatre dedicated to the people's community of the living.

To Americans Heidelberg is best known for the Ruperto-Carolo University, Germany's oldest college, founded in 1386. The medical authorities enjoy widespread fame, and the clinical wards are models of their kind. Hospitals and sanatoria, radio-active thermal spring, and hydro-pathic establishment are noteworthy. The library and museum house valuable art treasures but few coins. There are, however, several fine private collections, and shops display a few cheap coins, always priced at twice their value. (To be continued)

For over 50 years its monthly visits have been a source of inspiration and a stimulus to all grades of collectors, from the beginner to the advanced student.
